

Why Tricerat?

Printing solutions. Built for you.

For over **20 years** Tricerat has helped **10,000+** customers achieve rapid ROI by delivering simplified print administration, reducing helpdesk tickets, and providing an exceptional user experience.

Any Device, Any Location, Any Printer

Eliminate Print Driver Management

Rapid ROI with Huge Cost Savings

Streamlined End User Experience

Fits to Any Existing Environment

One Console to Manage Printing

Gain a rapid ROI right away

- » Allow your IT team to **focus on strategy**, rather than tasks such as print job troubleshooting or wasting time on driver management
- » Up to **75% reduction** in print-related helpdesk tickets
- » Print job auditing and reporting allows you to **track and recoup costs**
- » Dramatically **reduce print ticket escalation**

Centralized management

- » Find printers by searching for them in the console
- » Self service printer selection by the admin OR the end user
- » **Mass edit/create/manage** printers with the console via Import tool
- » **Dynamic deployments** to AD users and groups

Scalable, flexible, reliable

- » Compatible with **any environment** type
- » Never manage print drivers, worry about versions, or incompatibility
- » **Print server failover** allows for high availability of the database
- » Citrix, VMware, and RDS support

Create a streamlined UX

- » **Native print dialogue** delivered to the user for every type of printer in any virtual session
- » Proximity based printing **automatically installs** nearby printers for end users
- » **Eliminate** slow logon times
- » Dynamically-set default printers assign the correct printer every time
